

Amendments to the Claims:

This listing of claims will replace all prior versions, and listing, of claims in the application:

Listing of Claims

1. (Currently Amended) A ~~bath pouf~~ cleansing device comprising:

a mesh body; ~~and~~

~~an~~ a separately formed cavity attached to said mesh body, said cavity comprising means for holding a personal care product in said cavity such that said personal care product is transferred to at least a portion of said mesh body when said pouf is used ~~an opening that can be adjusted between first and second sizes,~~

wherein said first size allows the passage of a personal care product into said cavity such that said personal care product is transferred to at least a portion of said mesh body when said cleansing device is used,

wherein said second size prohibits the passage of said personal care product through said opening to thereby retain said personal care product in said cavity; and

wherein said opening may be repeatedly increased and decreased between said first and second sizes to allow the replacement of said personal care product.
2. (Currently Amended) The ~~bath pouf~~ cleansing device of claim 1 wherein said personal care product is one or more beads filled with soap.
3. (Currently Amended) The ~~bath pouf~~ cleansing device of claim 1 wherein said personal care product is one or more beads filled with lotion.
4. (Currently Amended) ~~The bath pouf of claim 1 further~~ A cleaning device comprising:

a mesh body;

a cavity attached to said mesh body, said cavity comprising an opening that can be adjusted between first and second sizes; and

a second cavity attached to said mesh body, said second cavity comprising means for holding a personal care product in said cavity such that said personal care product is transferred to at least a portion of said mesh body when said pouf is used an opening that can be adjusted between third and fourth sizes,

wherein said first and third sizes allow the passage of personal care products into said respective cavities such that personal care products are transferred to at least portion of said mesh body when said cleansing device is used,

wherein said second and fourth sizes prohibit the passage of said personal care products through said openings to thereby retain said personal care products in said cavities; and

wherein said openings may be repeatedly increased and decreased to allow the replacement of said personal care products.

5. (Currently Amended) The ~~bath pouf~~ cleansing device of claim 1 wherein said ~~means~~ for holding said personal care product opening comprises a ~~mesh pouch having an elastic opening band~~ that allows the size of said opening to be repeatedly increased and decreased.
